X-Ray Film Digitizer for Teleradiology and Low Volume Digitizing

The award-winning SIERRA *Advantage* film digitizer represents a significant advance in film digitizer technology and overcomes some of the most common barriers to digitizer use – quality, cost and size. It is small enough to be easily wall-mounted, solving siting problems commonly found at hospitals and radiology offices. It can be deployed in a number of other settings where quick access to high quality electronic images enhances patient care, such as the emergency department, intensive care and coronary units, as well as teaching hospitals and alternate care settings.
